GENIUS SCHOOL
An IB World School

Welcome to **GENIUS IB WORLD SCHOOL**

Genius IB World School is a dynamic educational institute established in the year 2014 aiming to provide high quality education for the holistic learning. The school has been led and managed by avid professionals ever since its inception. We are a community of learners who believe in value based progressive education featuring international practices and standards. Genius School is an authorized school for International Baccalaureate Primary Years Program (IBPYP).

2 IB Programme:

International Baccalaureate (IB) offers high quality programmes of an international education for the students aged 3 to 19 years. These programmes encourage students across the world to become active, compassionate and lifelong learners who understand the complexity of this rapidly changing world. Its balanced, conceptual and student centered programmes help learners become international minded who recognize the common humanity and share guardianship of this planet.

SALIENT FEATURES

1 Balanced Curriculum:

Our curriculum is unique in the sense that it is customized to fit the needs of children as well as the society they will grow into. The school has developed its own curriculum under the framework of IB PYP incorporating but not limiting itself to the national curriculum. Our academic leadership in collaboration with teachers and students have created interesting, engaging, challenging and relevant curriculum that is of both local and global significance.

3 Workshop based learning:

Relentless researches in the field of education have shown that despite excelling in academics, children are failing largely to deal with the little problems of everyday life and are at complete loss when it comes to making real life decisions. As a response to this, Genius IB World School has introduced a workshop based learning approach where children practically learn skills needed to prepare for real life. This program will expose children to non academic real world problems and engage them in logical, meaningful and collaborative learning.

5 Strong co-curricular activities:

We believe that the co-curricular activities play a pivotal role in the development of students' learning. Similarly, it's a proven fact that co-curricular activities provide opportunity for balanced learning which are essential for both physical and mental wellbeing. At Genius, we have embedded a variety of co-curricular activities as an integral part of our learning.

Performing arts – music, dance and drama

Visual arts – arts and crafts, architecture and design, photography

Sports – Futsal, basketball, swimming, martial-art, gymnastic, table-tennis, track and field games

4 Community, services and action:

Community services and action is another highlight of our school. Children at Genius IB World School are envisaged to develop into caring and compassionate individuals with empathy for other people and living beings. To this end, we involve our children in service action projects where children have to render service to the ones in need in the community inside and outside the school.

6 National and International exposures:

In order to ensure that children have access to the world outside their close community, we enroll students to various national and international events to facilitate them acquires foreign ideas, culture, thoughts and opinions and make them feel at home with uncommon situations. To this end children are also enrolled in various inter school competitions and events that will not only help them achieve their highest potential but also shape their future aspirations.

7 Annual school excursion:

This program is another dimension to our teaching and learning to enrich our children's experience by giving them exposure to various places in and outside Kathmandu valley where they delve in nature, culture and day-to-day lives of the people in those areas.

8 Services and Facilities

Infrastructure and classroom:

The school has a world class infrastructure supported by state of art facilities and modern amenities including well-resourced and children friendly classrooms with multimedia facility and modern teaching aids.

Library: We have a well-equipped library with extensive range of reference books, fiction and non-fiction books, daily newspapers, periodicals, magazines, current journals, nationals and internationals educational reports and e-library with multimedia facilities.

Parental guidance and counselling: We provide counseling service focusing on personal and intellectual development of our children. This counseling service is aimed at helping our students, parents and teachers develop positive learning experiences.

Cafeteria: We are aware that a variety of well- balanced and nutritious diet is an absolute requirement for both physical and intellectual growth of children. Meals are prepared under hygienic conditions in our modern kitchen by trained staff under the direction/supervision of a professional chef and dietitian.

Infirmary: The school has its own infirmary that attends to minor illnesses and injuries and provides first aid services to any student in need.

Transportation: The school provides standard transportation service to the children, which ensures child safety and comfort. Each school van/bus is driven by an experienced driver who is accompanied by an assistant. These members of staff ensure that the students are safe as they travel on the school vehicles.
